FIBRE CHEMISTRY

Volume 26, Numbers 1-6, 1994

(A translation of *Khimicheskie Volokna*)

Engl./Russ.

Volume 26, Number 1, January-February, 1994

Prediction of Promising Trends in Production of Chemical Fibres - S. P. Papkov 1 3

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Use of Polyaniline for Fabrication of Promising Synthetic Fibres (Review) - A. V. Volokhina 9 11

Chemical Transformations in High-Temperature Treatment of Polyacrylonitrile Fibre (Review) - V. Ya. Varshavskii 17 18

Complex-Radical Graft Copolymerization of Methacrylic Acid with Vinylic Monomers in Aqueous Medium Initiated with the $K_2S_2O_8$–$Na_2S_2O_3$ Redox System in the Presence of Cu^{2+} Ions - N. V. Smirnova and G. A. Gabrielyan 24 24

Fabrication of Sulfonic Acid Chemisorption Fibre by Graft Polymerization - E. S. Zashchepkina, N. N. Zakharova, and M. P. Zverev 29 28

Effect of Phosphorus-Nitrogen-Containing Fire Retardants on Thermal Decomposition of Polyethylene Terephthalate - N. S. Zubkova, M. A. Tyuganova, N. I. Nazarova, E. D. Mikhailova, and N. G. Duderov 32 31

Stabilization of the Properties of High-Molecular-Weight Cellulose Acetate - E. A. Nekhaenko, L. S. Gembitskii, N. V. Protsenko, R. P. Papikyan, N. L. Kuz'mina, and B. L. Biber 36 34

PROPERTIES AND USE OF CHEMICAL FIBRES

A Problem with the Mechanical Properties of Composites Reinforced with Organic Fibres - S. P. Papkov 39 36

Drying of Gas–Air Mixtures with Vion KN-1 Chemisorption Fibre - B. M. Kats, R. M. Dubovskii, and L. M. Kutovaya 44 40

Glass Fibres and Materials Based on Them 48 43

Evaluation of Adhesiveness of Glass Filaments in a Complex Fibre with a Dynamic Method - T. I. Andreeva, V. I. Kiselev, and A. I. Koblyakov 49 44

Effect of Internal Stresses on the Structure and Physical and Mechanical Properties of a Complex Glass Fibre - V. I. Kiselev 53 46

Effect of a Liquid on Cohesion of the Structure of a Complex Fibre - T. I. Andreeva, V. I. Kiselev, and A. I. Koblyakov 57 48

PRODUCTION CONTROL

Environmental Analytical Control. Controllable Sludge and Slime Pollution Indexes. Methods of Preparation of Samples in Analysis of the Suspended Phase of Natural and Wastewaters, Sludge, and Slime. Review Based on Data from the National Standards of Foreign Countries - S. A. Lomonosov, V. A. Bodnya, A. P. Gorskaya, L. T. Ovechenko, and A. K. Dibrova 60 51

Determination of Iron, Cobalt, Copper, and Zinc in the Suspended Phase, Slime, and Sludge from Natural and Wastewaters by the Atomic Absorption Method - A. P. Gorskaya, I. T. Ovechenko, V. A. Pribytkov, V. A. Bodnya, A. K. Dibrova, and S. A. Lomonosov 67 56

Absorption Purification of Caprolactam from Waterwaters in Experimental-Industrial Conditions - E. I. Khodorov, E. V. Tarabutkin, R. N. Kachur, P. A. Zubkov, and V. B. Kvasha 72 60

Volume 26, Number 2, March-April, 1994

CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES

Basic Characteristics of Structure Formation in Fabrication of Carbon Fibres from Different Raw Material. 1. Chemical Transformations in Heat Treatment of the Starting Fibres (Review) - V. Ya. Varshavskii 79 6

Characteristics of Regeneration of N-Methylpyrrolidone - G. A. Rudova and I. Z. Éifer 86 13

Selection of the Optimum Parameters for Spinning of Modified Acetate Textile Fibre - A. Kh. Usmanov, I. B. Miroshnichenko, A. S. Sadykov, and K. É. Érgashev 94 20

Properties of Composites Based on Polyvinyl Alcohol Containing Biologically Active Substances and Films Made of Them - N. R. Kil'deeva, S. P. Trusova, N. S. Pilevskaya, and A. D. Virnik 97 23

Electrochemical Utilization of Lithium Chloride in Fabrication of Synthetic Fibres - A. V. Skolunov 99 25

PROPERTIES AND APPLICATIONS OF CHEMICAL FIBRES

Hollow-Fibre Membranes for Ultrafiltration (Review) - A. P. Borshchev, É. M. Aizenshtein, and V. K. Gusev 105 30

Fabrication of Thermostable Fibres from a Mixture of Para-Aramid and Polyaniline - A. V. Volokhina, I. K. Pronichkina, and O. N. Efimov 114 38

Finishing of Carbon Fibres by Electrochemical Polymerization of Monomers on Their Surface - E. B. Trostyanskaya, V. V. Antonov, and A. K. Shibanov 118 41

Scale Effect of Carbon Fibre Strength - V. G. Makarov, I. A. Skorobogatov, and A. P. Ustimova 122 45

Fabrication of Sorption Polyamide Fibres for Sorption of Platinum Group Metals - T. V. Druzhinina, L. A. Nazar'ina, A. S. Aleksandriiskii, N. Yu. Mosina, N. I. Shcherbinina, and L. S. Gal'braikh 125 47

GLASS FIBRES AND MATERIALS BASED ON THEM

Effect of Internal Stresses on the Structure and Physical and Mechanical Properties of a Complex Glass Fibre - V. I. Kiselev 129 50

Estimation of the Energy of Reaction of Textile Materials with Liquids - V. I. Kiselev, A. I. Koblyakov, and O. A. Udachin 133 53

Change in the Structure and Mechanical Properties of Complex Glass Fibres during Drying - V. I. Kiselev, T. I. Andreeva, and A. I. Koblyakov 139 58

MACHINES AND EQUIPMENT

Deaeration of Spinning Solutions in a Vacuum Centrifuge - A. T. Serkov and L. A. Rykova 142 60

Analysis of the Reliability of Adjustable-Speed Electric Drives at the Klinvolokno Corporation - S. I. Gruznykh 144 62

FROM THE CREATIVE LEGACY OF SCIENTISTS IN CHEMICAL FIBRE THEORY AND TECHOLOGY

Creation of a New Generation of Polymer Fibres - A. V. Volokhina 147 64

Volume 26, Number 3, May-June, 1994

CHEMICAL FIBRE CHEMISTRY AND TECHNOLOGY

Basic Characteristics of Structure Formation in Fabrication of Carbon Fibres from Different Raw Materials. Part 2. Analysis of Structural Transformations. A Review - V. Ya. Varshavskii 151 9

	Engl./Russ.	
Fabrication and Properties of Modified Polyamide Fibres in Combination of Graft Polymerization and Alkylation - Yu. D. Andrichenko, T. V. Druzhinina, and G. N. Bondarenko	159	17
Continuous Treatment of Filament with a Dosed Amount of Reagent - A. T. Serkov and É. R. Alieva	163	20
Analysis of Steady Conditions for Spinning of Viscose Cord Fibre - S. V. D'yachenko and Yu. V. Grigor'ev	167	23
PROPERTIES AND USE OF CHEMICAL FIBRES		
Sorption Studies of Hydrated Cellulose Fibre Having a Liquid-Crystal Structure - L. Ya. Konovalova, G. S. Negodyaeva, A. T. Kalashnik, G. V. Rudinskaya, L. P. Mil'kova, N. S. Pozhalkin, and M. M. Iovleva	170	26
Comparative Analysis of the Properties of Textured Fibres Processed on Different Single-Process Machines - A. V. Pirozhkov, A. A. Vasyutina, N. V. Shakhova, and K. N. Ushakova	174	29
Thermooxidative Stability of Carbon Fibre Composites - T. M. Ul'yanova and A. Z. Makhover	176	31
Scale Effect of the Strength Properties of Carbon Plastics - V. G. Makarov	179	33
Composite Prepregs from Thermoplastics - A. V. Savitskii, A. I. Lyashkov, and I. A. Gorshkova	183	36
Secondary Cellulose Acetate Hollow Nanofiltration Fibre - L. P. Perepechkin, L. N. Nechaeva, S. I. Banduryan, N. A. Ivanova, G. L. Bychkova, V. S. Khrabrova, L. V. Pil'nyak, L. Ya. Konovalova, G. S. Negodyaeva, and L. M. Glagoleva	186	38
GLASS FIBRES AND MATERIALS MADE FROM THEM		
Mechanisms of Breakdown of the Structure of Glass Cloth during Impregnation with Polymer Binders - V. I. Kiselev and R. V. Raikov	192	43
Estimation of the Kinetics of Impregnation of Fibre Materials - V. I. Kiselev	196	46
MACHINES AND EQUIPMENT		
High-Speed Spreading Mechanism with a One-Slot Screw Winch - L. S. Mazin, I. I. Matyushev, and S. D. Polyakova	202	51
Gas Seal for Installations for High-Temperature Treatment of Carbon Fibre Materials - P. I. Cherednichenko and V. A. Kosenok	205	53

Volume 26, Number 4, July-August, 1994

Dear Readers	207	1
Trends in Melt Spinning of Synthetic Fibres - W. Stibal, H. Luckert, and W. Kemp	208	8
Development of an Existing Method for Fabrication of Polyesters by Modeling of the Process - E. Van Endert and R. Hagen	210	9
Method for Processing (Mixing) Polyester Melt - H. Luckert	216	14
Method of Flatting Polyester Fibres in Melt - W. Stibal and H. Luckert	220	17
Periodic Fabrication of Polyethylene Terephthalate - E. Morf and W. Stibal	226	21
Method of Manufacturing Polyester Bottle Granulate - H. Luckert	228	23
Continuous Polyamidation of Polyamide 6 - E. Morf and W. Stibal	231	25
Modeling and Use of Models for Describing Processes in Spinning of Fibres from Melt - R. Beyreuther	234	28
Fabil Computer System - Use of a Model of Fibre Formation in Multistrand Melt Spinning - H. Brunig	243	35
Centralized Blowing for Polyester-Fibre-Spinning Installations - H. Luckert	250	41
Advanced Technologies and Economically Efficient Production of Staple Fibre for Textile and Industrial Applications - W. Stibal	254	44

		Engl./Russ.
Fabrication of Thin Polyester and Polyamide Fibres with High-Speed Spinning - H. Luckert and W. Kemp	259	48
New Advances in Fabrication of Partially Oriented Yarns for Friction Texturing - H. Luckert, W. Stibal, and W. Kemp	264	52
H4S Method for Fabrication of Polyamide and Polyester Fully Drawn Yarns - H. Luckert	271	59
Method of Production of Industrial Polyester Yarns - H. Luckert	276	62
Production of Polyamide 6 Tire Cord - H. Kern	280	64
Installations for Production of Polypropylene Fibre - G. Albrecht	282	66

Volume 26, Number 5, September-October, 1994

On the 75th Anniversary of the A. N. Kosygin Moscow State Textile Academy - I. A. Martynov	285	3
Z. A. Rogovin. Initial Stages of Formulation of the Scientific Principles of the Chemistry and Technology of Artificial Fibre Production - L. S. Gal'braikh	290	8
Polymeric Fibre Materials with Low Combustibility. A Review - M. A. Tyuganova, N. S. Zubkova, and N. G. Butylkina	294	11
Modified Polyamide Fibres with Improved Consumer Properties. A Review - T. V. Druzhinina	306	20
Scientific and Technological Principles for Creation and Use of Fibre Biocatalysts. A Review - A. D. Virnik, N. R. Kil'deeva, and S. B. Krasovskaya	316	28
Chemical Modification of Aquatic Polysaccharides. A Review - G. A. Vikhoreva, I. N. Gorbacheva, and L. S. Gal'braikh	326	37
Modification of Viscose Fibre by Graft Polymerization of 1,2-Dimethyl-5-vinylpyridinium Methyl Sulfate - M. A. Penenzhik, L. P. Berdnikova, and A. D. Virnik	335	45
Development of a Method for Fabrication of Modified Viscose Fibre Containing Quaternary Ammonium Salts - M. A. Penenzhik, L. P. Berdnikova, and A. D. Virnik	339	49
Modification of Viscose Fibre by Graft Polymerization of N-Trimethylammonium Ethylmethacrylate Methyl Sulfate - M. A. Penenzhik, N. V. Kolokolkina, and A. D. Virnik	343	51
CHEMISTRY AND TECHNOLOGY OF CHEMICAL FIBRES		
Some Features of Synthesis of Polymetaphenylene Isophthalamide - N. I. Kuz'min, T. I. Lebedeva, V. A. Fenin, B. I. Zhizdyuk, and K. G. Khabarova	348	55
Cationic Polymerization of Caprolactam in a Mixture of Phosphoric and Adipic Acids - L. N. Mizerovskii and V. G. Silant'eva	353	58
Rheological Characteristics of Processing of Thermoplastics Reinforced with Carbon Fibres - S. V. Kotomin, V. E. Dreval', A. G. Markov, and B. I. Molchanov	357	61

Volume 26, Number 6, November-December, 1994

Spinning of Acetate Fibre Containing Filaments of Low Linear Density - M. I. Nefedova and U. N. Ishanov	361	19
Use of Fibre Wastes from Production of Acetate Fibres - M. I. Askarov and A. B. Tashpulatova	363	20
CHEMICAL FIBRE CHEMISTRY AND TECHNOLOGY		
Radical Mechanism of Thermal Transformations of Polyacrylonitrile - G. I. Savchenko, V. M. Bondarenko, and M. T. Azarova	365	23

	Engl.	Russ.
Fireproof Thermostable Fibres Based on Oligomeric Phosphorus-Containing Fireproofing Compounds - G. G. Frenkel', A. M. Shchetinin, and Z. G. Oprits	369	26
Spinning of Hollow and Matrix Fibres from Polysulfone Melt - S. V. Kotomin, T. I. Ignatenko, and Yu. A. Kostrov	374	29
Effect of Thiourea Dioxide on the Dynamics of Continuous Homophase Synthesis of Fibre-Forming Copolymers of Acrylonitrile, Methyl Acrylate, and 2-Acrylamido-2-methylpropanesulfonic Acid - L. A. Shcherbina, E. A. Alekhina, V. G. Chirtulov, and V. E. Geller	377	31
Dimerization of Ions in Aqueous Solution of Lithium Chloride in Adiabatic Conditions - A. V. Skolunov	383	35
Estimation of the Preexponential Factor in the Equation for the Rate of Accumulation of Submicron Cracks in Failure of Polymers and Polymer Fibres - I. A. Stepanov	387	38
PROPERTIES AND USE OF CHEMICAL FIBRES		
Activation of Carbon Fibres from Pitch by Atmospheric Oxygen - E. G. Monastyrskaya, V. Ya. Varshavskii, M. A. Kozykina, and A. G. Zotov	389	40
Thermal Properties of Sulfo-Containing Cation Exchangers Based on Copolymers of Vinylidene Fluoride - O. M. Khloptseva and A. A. Mukhin	393	43
Specific Surface Area of Poly-1,3,4-oxadiazole Fibres of Card Structure - L. Ya. Konovalova, G. S. Negodyaeva, L. A. Borisenko, and N. P. Okromchedlidze	399	47
Properties and Area of Application of Chemically Metallized Chemisorption Fibres - I. N. Illarionov and A. P. Komarov	402	49
Mathematical Model of Desorption of Acetone from Spools with Freshly Spun Acetate Fibre - S. F. Grebennikov, L. E. Klyuev, V. N. Grigoryan, and K. E. Perepelkin	404	51
Determination of the Chemical Stability of Nonwoven Geotextile - N. A. Lebedev	408	54
GLASS FIBRES AND MATERIALS MADE FROM THEM		
New Filter Materials - L. V. Toropina, O. F. Fedorova, G. G. Vasyuk, V. L. Kornyushina, V. M. Dyaglev, and Yu. M. Rassadin	410	56
New Nonwoven Materials for Thermal Insulation - L. V. Toropina, O. F. Fedorova, G. G. Vasyuk, V. L. Kornyushina, V. M. Dyaglev, and Yu. M. Rassadin	412	58
Thread-Sewn Cloth and Mesh Made of Basalt Fibres - L. V. Toropina, G. G. Vasyuk, O. F. Fedorova, V. L. Kornyushina, V. M. Dyaglev, and Yu. M. Rassadin	414	59
Modeling of the Surface Layer of a Fibreglass-Reinforced Plastic Composite - A. N. Kalenchuk and N. N. Trofimov	416	61
